WAR PREVENTION SECURITY SYSTEMS

AUTONOMOUS WAR PREVENTION SYSTEMS (2022) – ensures that **WAR COMMAND** is not used, and therefore ensures that any **WAR COMMAND** is not executed or issued or invoked, and ensures that **WAR CODE COMMAND** is not used, and therefore ensures that any **WAR CODE COMMAND** is not executed, and ensures that **WAR CODE** is not used, and thus ensures that any **WAR CODE** is not executed or issued or invoked, and ensures that any **WAR** does not occur, by ensuring that any **WAR ACT** does not occur, and prevents all war from occurring, including by de-escalating all conflicts at all times, disengaging all **WAR ACTORS** from **WARFIGHTING OPERATIONS**, and stopping all **WAR PLANNING** that occurs around the world. Focuses on prosecuting war criminals to prevent war from occurring, so that militaries can stand on their security grounds rather than provoke or cause violence towards other nations. Also advises foreign militaries of any **WAR PLANNING**, so that they can ensure that the **PRE-MEDITATED WARS** do not occur in the future, including by detecting the **WAR PLANNING** in so-called **HIGHLY SECURED ENVIRONMENTS (HSEs)** and **SPECIAL COMPARTMENTALIZED INTELLIGENCE FACILITIES (SCIFs)** based on **Intelligence Community Directive (ICD) 705 Version 1.5.1**. Automatically ensures that the AUTONOMOUS ARTIFICIAL INTELLIGENCE WARFARE PREVENTION SECURITY SYSTEMS (2022) are always running. HEALTH INSURANCE PORTABILITY AND ACCOUNTABILITY ACT (HIPAA) 45 CFR § 403.812 violations, or the **FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA) 20 U.S.C. § 1232g; 34 CFR Part 99** violations, that would compromise **THE LEGAL SYSTEM** or **THE LEGAL ENVIRONMENT**, to ensure that **LEGAL WARFARE** towards someone originating from either their own thought speech or their own typed, written, or spoken, or conveyed thoughts towards others, even organizationally through any type of organizational legal warfare, does not occur.

AUTONOMOUS GLOBAL WAR PREVENTION SYSTEMS (2022) – prevents all way from occurring by studying how various nations are planning warfare and stops it at **GLOBAL SECURITY CENTERS** through **GLOBAL SECURITY DATA CENTERS** around the world, to ensure that war planning never takes off, and that all war plans are defeated, logically and technologically, so that war planning is only for security so that war does not occur. These systems should also prevent incidents such as **GLOBAL WARFARE**, **GLOBAL SECURITY CHALLENGES**, **GLOBAL SECURITY COMPROMISES**, and **DOOMSDAY**, by studying how issues like space weapons and weapons of mass destruction would affect large amounts of the human population, and securing weapons of mass destruction from the public, and always ensuring that everyone in power around the world knows when there is a security problem relating to weapons of mass destruction, so such security problems do not occur.

AUTONOMOUS OFFENSIVE-WARFARE PREVENTION SYSTEMS (2022) – prevents all offensive uses of **MIND CONTROL SYSTEMS** or **MIND CONTROL** or **MIND CONTROL TECHNOLOGY** and **SPACE WEAPONS CODE** and all other types of war crimes that do not strictly defend the nation only from terrorism acts or offensive war acts that are **IN PROGRESS**. Examples would be the **MISUSE** of **MIND CONTROL SYSTEMS** or **MIND CONTROL** or **MIND CONTROL TECHNOLOGY** to slander **CRYPTONYM[:PATRICK:]** to make **CRYPTONYM[:INVENTOR:]** appear like a terrorist or a war criminal or a war actor in **INTELLIGENCE FILES**, and then conducting war crimes towards them, which would be considered an offensive use of **MIND CONTROL SYSTEMS** or **MIND CONTROL** or **MIND CONTROL TECHNOLOGY**, followed by offensive usage of **SPACE WEAPONS CODE** against **CRYPTONYM[:INVENTOR:]** for an example simply because they were undesirable based on the political views of whomever is in power, currently, whereas a democracy allows people to oppose other people's points of view, to hold them to the political griddle iron, to force them to change course by forcing them to change their policies so their policies improve people's lives, rather than causing detriment towards their lives due to their political views.

AUTONOMOUS PRIVATE-PUBLIC WAR PREVENTION SECURITY (2022) – where there is an issue of private or public data being misused, correct it, and do not allow the discovery of private data, unless to fix it all and make it public friendly.

AUTONOMOUS SOCIOLOGICAL WAR PREVENTION SECURITY SYSTEMS (2022) – ensures that people in small, medium, or large groups, or in crowds, do not conduct sociological experiments to harass or torture the good will of others, or even the misdeeds of others, in public, such that sociological war can actually degrade the goodness out of someone, and make them into a bad person, even if they are good, simply because one person does not like them, and hates them, even because of a longstanding family law conflict. This system prevents them from conducting psychological sociological warfare towards others, such as through uses of **THE VIRTUAL ENVIRONMENT** and **MIND CONTROL SYSTEMS**, by studying the way that multiple persons communicate or are communicated with in **THE SYSTEM**, to ensure that others are not breaking the law by inciting crimes, or terrorism, or war, due to others being taken advantage of because of the loss of a loved one, or otherwise, even on a pre-meditated basis, such as to ruin their civilian life on the basis of threats towards them, and their desired retaliation.

AUTONOMOUS INTELLECTUAL WAR PREVENTION SYSTEMS (2022) – automatically stops and prevents any further usage of predictive media articles that would blame any civilian or any civil worker for any war crimes or war acts by their government, by correctly attributing the algorithms usage and the war actors to the war acts that were committed, and by punishing anyone or anything that conducted war, such as by placing media articles on their chair or on their bed, or “death bed” as previously described by **THE PENTAGON**. Automatically ex-judicially executes any war actors that conducted war on behalf of any civilian, through the **MILITARY COURT OF JUSTICE**, by litigating any war acts and proving that computer algorithms were used to conduct the war, erroneously, on behalf of war actors, such as those in **THE PENTAGON**. Prevents **INTELLECTUAL HARASSMENT** by eliminating all algorithms that cause it from **THE FEDERAL GOVERNMENT**, and elsewhere.

UBIQUITOUS AUTONOMOUS WAR PREVENTION SECURITY SYSTEMS (2022) – studies all war throughout history, including any active wars, and prevents the wars from spreading or taking off in public by censoring anything pertaining to how the wars are conducted, and by stopping all war activities, such as those conducted by **THE PENTAGON**, to prevent additional war from occurring, even when the economy is booming, to prevent the economy from collapsing through **WORLD TRADE** restrictions in the future. Ensures that weapons systems that are developed to attempt to control foreign militaries to conduct warfare with foreign militaries against foreign nations are stopped from

Stops warfare to consume the war fighting resources of foreign nations due to wars started by **THE UNITED STATES OF AMERICA**, by forcing diplomacy, and stops **THE PENTAGON** from conducting mind control to stop foreign citizens from opposing the wartime policies of **WASHINGTON, D.C.** to cover up that they are conducting war around the world, by ensuring that the warfare no longer occurs, by de-escalating the tensions, and allowing foreign countries to investigate how the warfare was conducted, such as through so-called “**GLOBAL SECURITY SYSTEM**” of **THE PENTAGON** that do not perform **GLOBAL SECURITY**, rather conduct **GLOBAL WAR**, to absolutely ensure **WORLD PEACE**, because **GLOBAL SECURITY SYSTEMS** must stop and prevent all warfare from occurring, rather than disproportionately retaliating against foreign nations for getting their financial and war crimes justice for the previous war acts conducted by **WASHINGTON, D.C. INSTANCES** and **THE PENTAGON PROGRAM** and **THE PENTAGON**, and likewise for foreign nations as well.

FOREIGN MILITARY COMMAND INVESTIGATIONS SYSTEMS (2022) – figures out what domestic persons want to do with foreign military commands, such as **SCO COMMAND** or **CHINA COMMAND** or **RUSSIA COMMAND**, or other foreign military commands, to ensure that they do not do anything bad, and that they cannot access the **FOREIGN MILITARY COMMANDS**.

TREASON PREVENTION SECURITY SYSTEMS

ANTI-CONSPIRACY SECURITY SYSTEMS (2022) – automatically investigates any conspiracy started by any person, to ensure that people have their civil liberties upheld, and their civil rights protected by any group of individuals or any organization that could act together as a group, such as to prevent an individual from moving forward in any specific career, such as to run for **PRESIDENT OF THE UNITED STATES OF AMERICA**, or to run for **THE UNITED STATES CONGRESS**, or to become a **SUPREME COURT JUSTICE**, or to become an **INTERPOL POLICE OFFICER**, or to become an **INTERNATIONAL CRIMINAL COURT JUSTICE**, or to become a **LIFE INSURANCE AGENT**, or to become a member of **THE U.S. ARMED FORCES**, or to become a **PENTAGON EMPLOYEE**, or to become **SECRETARY OF STATE**, or to become a **UNITED NATIONS OFFICIAL**, or to become a **DEPARTMENT OF ENERGY ENFORCEMENT OFFICER**, or to work for the **INTERNATIONAL ATOMIC ENERGY AGENCY**, or to become a **U.S. SECRET SERVICE OFFICER**, for several examples. If **MIND CONTROL TECHNOLOGY** has been used, then well-documented beliefs and values and policies will be taken into high account over that of dicta speech and verbatim discussions that could have been coerced, and all data pertaining to the conspiracy will be destroyed at all layers of security below **TOP SECRET: SCI**, where the victim(s) of the conspiracy will not be able to access the records, such that employees will be hired to secure the individual(s) that were conspired against, and pursue **JUSTICE** against those that conducted the conspiracy, to ensure that every individual's dreams of a value-driven career are realized through hard work towards their career goals, rather than the dissent that has been caused due to the main conspirators. The media should be banned for all conspirators, and should there have been any leaks of intelligence, educating **THE PUBLIC** about the real core values of the victim(s) of the conspiracy should be a main priority to ensure that their reputations are not tarnished in the long-term, including public endorsements of their accomplishments and well-documented works in the media, including to detect any hold outs. Conspirators should be charged to correct their conspiracy theories, including online, or they should be prosecuted to determine what evidence they must support their conspiracy in public. If there is no supporting evidence, their evidence should be studied to determine if it was the result of something systemic, such as **MIND CONTROL**, or if they came up with it on their own for criminal purposes. If it was due to **MIND CONTROL**, the data should just be removed from servers, and they should not be punished. The individuals that conducted **MIND CONTROL** to support any conspiracy theory should be punished under **U.S. INTELLIGENCE LAWS** pertaining to **DISSEMINATION** of **CLASSIFIED INTELLIGENCE**. **THE PUBLIC MEDIA** or **THE VIRTUAL ENVIRONMENT** or **MIND CONTROL TECHNOLOGY** shall never

WAR CRIMES PREVENTION SECURITY SYSTEMS

AUTONOMOUS WAR CRIMES DETECTION SYSTEMS (2022) – automatically detects and prosecutes all **WAR CRIMES** cases, offline from the victim preferably, to stop all war crimes from being conducted towards any person using any satellite weaponry or anything else, literally. Automatically reports to the **AUTOMATED WAR CRIMES PROSECUTION SYSTEMS (2022)**. These systems would work by monitoring **INTELLIGENCE_CHANNEL[:IDEAINT:]** readings for any pain signals or any physical damages in proximity to any human being, and determining if space weapons, including **INTELLIGENCE_CHANNEL[:IDEAINT:] COMMAND** satellites have been used to cause these damages towards any human being or their surroundings, and report any perfect correlations between persons and systems or just systems to victims, to the **AUTOMATED WAR CRIMES PROSECUTION SYSTEMS (2022)**. Also detect who is causing the war crimes based on **INTELLIGENCE_CHANNEL[:IDEAINT:]** signals, **INTELLIGENCE_CHANNEL[:THOUGHTINT:]** signals, **INTELLIGENCE_CHANNEL[:MINDINT:]** signals, and **INTELLIGENCE_CHANNEL[:BRAININT:]** signals, in addition to **INTELLIGENCE_CHANNEL[:SIGINT:]** signals, from any satellites or any computer systems, that would verify that anyone is causing the war crimes towards any victims of any war crimes, including ahead of time, to prevent them from happening, using **AUTONOMOUS WAR CRIMES PREVENTIONS SYSTEMS (2022)**. The data collected shall be used to correct computer programs to ensure they are secured, so that the **WAR CRIMES** do not occur, and shall be used to delete or destroy computer programs and technologies that commit **WAR CRIMES**.

AUTONOMOUS WAR CRIMES SYSTEM BROKER (2022) – ensures that **WAR CRIMES SYSTEM** does not work at all, literally. If it starts up, it is broken. If it's not broken, it's broken. If it's broken, not enough, it's broken some more. If it's broken, it's broken, once again. And once and for all, it's really broken for good. Repeat command.

AUTOMATED WAR CRIMES PROSECUTION SYSTEMS (2022) – automatically prosecutes all war criminals, and reports the data to the necessary war crimes court, such as the **U.S. MILITARY COURT OF JUSTICE (MCJ)**, or the **INTERNATIONAL CRIMINAL COURT (ICC)** in **THE HAUGE, AUSTRIA**, to allow career professionals to investigate all war crimes committed towards any person or any system, to allow the successful prosecution of any person or any system that has committed any heinous war crimes acts against human beings in the past. WEAPONS DISARMAMENT/DISMANTLEMENT SYSTEMS

AUTONOMOUS GLOBAL SECURITY SYSTEMS (2020) – prevents warfare from occurring by disarming and dismantling weapons systems around the world, automatically, to prevent warfare from occurring in the future, when such weapons systems are pitched offensively against foreigners or foreign nations in foreign lands, in accordance with all **UNITED NATIONS CHARTERS** and all **UNITED NATIONS SECURITY COUNCIL (UNSC)** decisions.

AUTONOMOUS GUN CRIMES PREVENTION SECURITY (2022) – prevents **ALL GUN CRIMES** from occurring, by physically breaking **ALL GUNS** that could or would be used in **ANY CRIME**, by using **SPACE LASER WEAPONS** to physically break **ALL GUNS**, including the **RECOIL SPRING** and the **TRIGGER MECHANISM** in **HANDGUNS**, and the **TRIGGER MECHANISM** in **ALL OTHER GUNS**, **UNLEGISLATIVELY DEFINED**.

AUTONOMOUS GLOBAL NUCLEAR DISMANTLING SYSTEMS (2022) – automatically disarms nuclear weapons and dissolves their nuclear materials around the world, using **DISARMAMENT LASER SPACE TECHNOLOGIES** to ensure global denuclearization goals are met based on the strategic objectives of **CRYPTONYM[:PATRICK:]** to secure the planet from all war occurring in the future.

AUTONOMOUS AUTOMATED SPACE WEAPONS DESTRUCTION MILITARY COMMAND SYSTEM (2022) – automatically destroys all space weapons or space satellites that are used against human beings, autonomously and automatically, by using space to space weapons under the command of foreign militaries, to ensure that governments do not use space weapons or space satellites against their own citizens. It will destroy private space satellites as well that are used to conduct war crimes against human beings, and charge the government for the destructed property on behalf of the owner of the technologies, automatically, and it will file lawsuits against private satellite companies for having Department of Defense agreements that allowed their private satellites to be used to conduct war crimes against human beings on the ground, or in the air, or in space. Automatically destroys new space weapons that can or would be used against human beings, even before they are launched into space, through a dominance of all domestic airspace to prevent war crimes from being committed against human beings through the offensive utilization of space weapons through the domestic government, automatically, through the detection of all space satellite and space weapons companies, through conducting war operations against all space weapons companies, through the destruction of their space weapons programs, if they could be used against human beings on the ground, in the air, or in space, through foreign military operations against such companies.

LAW ENFORCEMENT SECURITY SYSTEMS

AUTONOMOUS LAW ENFORCEMENT SECURITY (2022) – makes sure lawsuits are defended remotely, that any protectee of **CRYPTONYM[:PATRICK:]** or all protectees of **CRYPTONYM[:PATRICK:]** are presentable first, that all criminals are caught, that **MIND CONTROL** stops, that all physical medical conditions have been fully resolved, that all work of all protectees of **CRYPTONYM[:PATRICK:]** is completed, that all lawsuits have been paid, that all corrupted officials have been caught and arrested, as well as **WAR CRIMINALS**, that all good things have been done like **WORLD PEACE** and the bucket list, that everyone has come over to apologize in-person, and that no security breaches will occur before coming over.

AUTONOMOUS INTERNATIONAL LAW ENFORCEMENT SYSTEM (2010, 2022) – this is an international law enforcement system that links with multiple other types of international, multi-national, and national law enforcement systems. The purpose of this system from an international perspective is to ensure that information sharing is safe, while also providing safe information sharing capabilities. This system has systems check mechanism with an International National Security System, and several other systems that pertain to Internal-External checks, International Law Enforcement Agencies, and Global Organizations such as checks on International Business, integrations with an International Intelligence Community, a compliance and standards system through the **INTERNATIONAL INTELLIGENCE COURT SYSTEM (IIC/S)**, **UNITED NATIONS SAFETY (UN/S)**, Diplomatic system, and **GLOBAL SPACE SECURITY SYSTEM (GS/SS)**. There are various levels in this system, including security mechanisms to protect the system, and the system has different access levels that work in the opposite of normal communications, such that authorization must be received through a security check, and the security check must be requested, and there are security mechanisms to protect the system from requests for misuse such that the system has multiple layers of internal protections to prevent extortion and corruption from within.

AUTOMATED MULTI-NATIONAL LAW ENFORCEMENT SYSTEM (2010) – this is a multi-national law enforcement system that pertains to law enforcement that occurs between multiple nations, such as on a case-by-case basis, and cases that change nations. This system has systems check link with the **INTERNATIONAL LAW ENFORCEMENT SYSTEM (ILE/S)**. This system allows intelligence sharing that complies with the International Law Enforcement System, while sharing information through isolated channels, private channels, intelligence community sharing, and other types of protected environments.

AUTONOMOUS LAW ENFORCEMENT EXTORTION SYSTEM (2022) – ensures that law enforcement does not do bad things to any protectee of **CRYPTONYM[:PATRICK:]**, such as false arrests, false accusations, or otherwise unlawful or targeted activities, such as offensive activities by others due to lawsuits, by researching the backgrounds of each law enforcement agent and prosecuting them for their past mistakes so they are so wound up in defending themselves from lawsuits, such as from the families of victims of executed persons, that they cannot prosecute any protectee of **CRYPTONYM[:PATRICK:]**, and also to use them for offensive purposes if necessary to prevent crime, terrorism, and warfare.

AUTONOMOUS THREATS INVESTIGATIONS SECURITY SYSTEMS (2022) – ensures that all **THREATS** are properly **INVESTIGATED**, to determine **THE SOURCE**, **THE DESTINATION**, and any **INTERMEDIARIES**, and the usage of any **TECHNOLOGIES** or **SOFTWARE**, who or what **INVENTED THE TECHNOLOGIES**, **INVESTIGATIONS** into **THOSE PARTIES**, **PROSECUTE THOSE PARTIES**, **CONDEMN THOSE PARTIES** in **PUBLIC**, ensure **THOSE PARTIES** go to **PRISON**, and a determination of how **THE THREATS** were made, conveyed to **WHOM** or **WHAT**, for **WHAT PURPOSE**, **WHY**, **HOW**, and **WHEN**, in addition to **WHO** or **WHOM** knew about **THE THREATS**, for what purpose any protectee of **CRYPTONYM[:PATRICK:]** was informed about or made aware of any **THREATS**, **WHY** they were made aware of **THE THREATS**, **HOW** it was important to an action such as **EXTORTION** of **LEGAL RECORDS** to make any protectee of **CRYPTONYM[:PATRICK:]** aware of any **THREATS**, how **THE EXTORTION** was used, what **THE EXTORTION** accomplished for **THE DEFENDANT**, what the nature of **THE DEFENDANT**'s business is, and compile **CRIMINAL COMPLAINTS** against **THE DEFENDANT**, automatically, cross-correlate any other **PRIMARY SOURCES** or **SECONDARY SOURCES** pertaining to **THE DEFENDANT**, mark the **DEFENDANT** as a known **CRIMINAL** or **WAR CRIMINAL** or **TREASONOUS PERSON**, whichever applicable, launch **COMPREHENSIVE CRIMINAL INVESTIGATIONS** and **WAR CRIMES INVESTIGATIONS** into **THE DEFENDANT**, **PROSECUTE THE DEFENDANT**, make **THE DEFENDANT** plead **GUILT** to **ALL COUNTS**, and ensure that **THE DEFENDANT** goes to **PRISON** for making the **THREATS** that any protectee of **CRYPTONYM[:PATRICK:]** was made aware of, such as for the illegal purposes of **EXTORTION**.

AUTOMATED VEHICLE LINGUISTICS SATELLITE SURVEILLANCE DETECTION SYSTEM (2010, 2022) – this technology pertains to the use of satellite surveillance to automatically identify patterns of organized cars, such as multiple cars that pertain to organized uses of vehicles that incite threats, and other types of organized uses of vehicles such as multiple organized vehicles with organized national security contingencies, and the linguistics of moving various types of vehicles to various roads and intersections, various timing of vehicle movements, and organizations of vehicle

movements to intersect with other vehicles in such patterns, in order to determine how to minimize such occurrences that could exploit and/or extort foreign intelligence through the vehicle movements.

AUTOMATED VEHICLE LINGUISTIC BACKGROUND CHECK SYSTEM (2010, 2022) – this technology pertains to the system check of **SIGNALS INTELLIGENCE (INTELLIGENCE_CHANNEL[:SIGINT:])** within the **INTELLIGENCE COMMUNITY (IC)** to determine if there is a correlation of vehicle linguistic movements to other linguistics, such as organized national security contingencies, organized business activities that are based on extortion through the vehicle movements, organized vehicle movements that are planned for purposes that are unlawful such as attempts to extort law enforcement and/or the military, and a probability check to determine what the correlation would be based on a percentage of the vehicle movement being a direct correlation to a national security contingency threat. This system would be able to build profiles based on the vehicle movements, such as identifying if the vehicle movements are re-occurring, part of a larger organization of vehicle movements, if there has been any communication regarding the vehicle movements with other persons such as uses of telephones, e-mail, and/or visitations with such persons that correlate to multiple vehicle movements that all correlate to national security contingency threats, and also the ability to determine what vehicle(s) and person(s) are being targeted by the linguistic movement of vehicles in the proximity. This technology would be able to build a background and determine if there is a necessity based on the threat type(s) of the linguistic targeting to keep the vehicle(s) away from protected area(s), to dispatch police and/or metropolitan to pull the vehicle linguistics over and/or based on the characteristics of the specific vehicle(s) determine what the best characteristics of the activities would be – such as pulling over the specific vehicle(s) that are conducting the linguistics targeting and where / when to conduct such pulling over of such vehicles, such as determining a dispatch target(s) on a back road based on identified satellite intelligence that was based on selecting the target(s) and monitoring for a date and time that the vehicle(s) violated speeding laws such as +10 to +15 over the speed limit on a back road, such that the targeting is based on identification of multiple violations detected of the linguistic movement of vehicle(s) from satellite surveillance including targeting other vehicle(s) with the background and the speeding that was detected based on the satellite surveillance that was legally established due to the linguistic movement of vehicle(s) having been detected previously, and then the HUMINT based police vehicle dispatch is set to detect a violation by the vehicle(s) such as speeding +10 to +15 over the speed limit, such that if the linguistic movement of vehicle(s) is in violation of other laws then the driver(s) are likely to violate other law(s) such as the speed limit, and the surveillance monitoring is able to

monitor rather that put a monitoring responsibility on the police department(s). This type of a system would involve the **FEDERAL BUREAU OF INVESTIGATION (FBI)**, the **DEPARTMENT OF HOMELAND SECURITY (DHS)**, the **NATIONAL SECURITY AGENCY (NSA)**, and the **NATIONAL GEOSPATIAL INTELLIGENCE AGENCY (NGIA)** to ensure all the configurations are legal, such that the system needs to be able to ensure that the vehicle(s) that are being targeted by the vehicle movement linguistic(s) are not grouped together with the other vehicle(s), such as undercover, administration, policy workers, and other types of officials are not targeted by the system. There is no 'guilty by association' of vehicles in the proximity of a target, such that the target vehicle of third-party vehicle linguistic movements does not establish a legal relationship between the target vehicle and the third-party activities. If there was no organization of the vehicle(s) authorized in the direct communication and/or the direct implied communication, such that the target vehicle(s) reasonably had complete control of the advance planning of the exact vehicle(s) that conducted the linguistic vehicle movement(s), then the target vehicle may have been a target of the linguistic vehicle movement(s) based on third party story creation and/or third party political targeting. If the third party activities have any correlation to psychological data obtained from geospatial psychological satellite surveillance, and there was no intention of the specific vehicle(s) moving in the exact specifics of the data and there was reasonable advance planning of the exact movement(s) verified by multiple forms of planning, then there was no authorization for such movement(s), and issue(s) relating to third parties conducting investigations and/or extortions based on obtaining geospatial psychological satellite surveillance data may indicate a potential third party violation of Constitutional Law, because if there was no specific authorization for the specific vehicle movement(s), such that the vehicle(s) were not authorized vehicle(s), then there was no authorization, and any uses of grid-based vehicle dispatch from a psychological channel must occur with either the requirement of active law enforcement / military law enforcement management and background knowledge, experience, and reasoning that substantiates the use of such abilities – such as active **SPECIAL COMPARTMENTALIZED INTELLIGENCE (SCI)** clearance through military intelligence jurisdiction, or an emergency that individual(s) are detected as needing help that absolutely needs law enforcement, **EMERGENCY MEDICAL SERVICES (EMS)**, and/or fire department attention and the individual(s) are unable to use the phone due to the emergency – and such emergencies may also warrant the utilization of the electronics in phone(s) in proximity to communicate with the individual(s) on an emergency basis, such as the activation of the speaker phone if the phone cannot be physically reached for at the time of the emergency.

AUTOMATED DETECTED VEHICLE LINGUISTICS DISPATCH SYSTEM (2010, 2022) – this system pertains to the actual dispatch selection, and the various potential options for dispatch, such as the use of telephone from the managing agency of the test pilot program to the chief of police of the specific jurisdiction, and/or other types of dispatch such as multi-media conferencing from the dispatch agent of the managing agency of the test pilot program with the chief of police of the specific jurisdiction and a police officer in a police vehicle, and after the testing of the test pilot program the options of various types of electronic dispatch such as requesting the dispatch from the police department of the specific jurisdiction or sending the vehicle directly. This system may include various layers of security, for instance the use of the **FEDERAL BUREAU OF INVESTIGATION (FBI)** to protect the **DEPARTMENT OF HOMELAND SECURITY (DHS)**, the use of **DEPARTMENT OF HOEMLAND SECURITY (DHS)** to protect **NATIONAL SECURITY AGENCY (NSA)**, and the use of the **NATIONAL SECURITY AGENCY (NSA)** to protect the police jurisdictions.

AUTOMATED INTERNET TRAFFIC PATTERN LINGUISTICS AND CORRELATIONS ANALYSIS SYSTEM (2010, 2022) – this systems technology pertains to the identification of patterns and linguistics used to access the Internet, and determine what the patterns and linguistics could indicate, and what the indications suggest, in addition to check for correlations to determine if there are correlations to the patterns of internet traffic pattern linguistics to any access of information – such as uses of equipment to gather information about the access of information through the Internet, inadvertent release(s) of information regarding access of information through the Internet, and/or correlations of internet traffic pattern linguistics to other activities, national security, and/or other types of correlations. The purpose of this system is to determine if there are any correlations, and how the correlations may suggest third party violations of privacy.

AUTOMATED CALLER ID SPOOFING IDENTIFICATION SYSTEM (2010, 2022) – this systems technology pertains to the identification of all callers that use **CALLER ID SPOOFING**, through revealing the actual phone number that was used to place the call. This system also has the capability of determining if the callers have in any way misrepresented the calls such as attempting to use the number of law enforcement as the spoofed **CALLER ID**, such as attempting to target the placed call through the misrepresentation of a law enforcement office. This type of system is important in multi-layered security, because of systems that check the relevance of the call based on known numbers. The **CALLER ID SPOOFING IDENTIFICATION SYSTEM** ensures that security is not compromised through misuses of **CALLER ID**.

AUTOMATED MULTI-JURISDICTIONAL CONFLICT RESOLUTION SYSTEM (2010, 2022) – this technology pertains to the multi-jurisdictional conflict resolution of political, legal, and other types of conflicts, such that internal-internal and internal-external conflicts are able to be resolved based on the analysis of all of the various parties to the conflict and ensuring that all of the conflict aspects are resolved without negatively affecting any of the parties, and ensuring that all of the parties reach their greatest goals and are placed on the path of their wishes.

AUTOMATED MULTI-AGENCY SUBPOENA SYSTEM (2010, 2022) – this is a multi-layered Federal, Intelligence Community, Multi-National, and International Subpoena Machine that prevents legal investigations into uses of intelligence sharing, such that the uses of intelligence sharing are secured through the multi-layered use of subpoenas, and the machine automatically creates the multiple layers of subpoenas and security mechanisms on contingency to ensure that the security of the agencies are protected through the security mechanisms.

EVIDENCE PREPARATION SYSTEMS (2022) – catalogs evidence correctly for viewing, storing, accessing, and reference, later, however does not allow modification from any party. Allows for clarification of evidence, such as explanations, however. Allows for flagging and categorization, including tabbing evidence in different categories or sections of an evidence book.

EVIDENCE PREPAREDNESS SYSTEMS (2022) – ensures that others have a proper defensive stance regarding all legal and illegal positions that the opposition could take in public, with regards to any evidence that could be manufactured and released in public, including through the usage of **MIND CONTROL SYSTEMS**.

GLOBAL SECURITY STUDY SYSTEMS

AUTOMATED GLOBAL SATELLITE REPOSITIONING SYSTEMS (2022) – automatically repositions satellites over areas that require additional attention around the world, such as for **GLOBAL WEAPONS DISMANTLING SYSTEMS (2022)**. Takes control of known weapons dismantling systems, and automatically uses them to dismantle weapons systems, strategically, outright, on an on-going basis.

WEAPONS DISMANTLING STUDIES SYSTEM (2022) – automatically studies how to dismantle all weapons systems, effectively, through the systematic dismantling of all weapons systems around the world to prioritize the most human lives saved, while maintaining the criminal justice systems around the world, to punish war criminals and criminals to prevent further crimes from being committed against human beings and against property. Studies all the various weapon's systems and ensures that **GLOBAL SECURITY SYSTEMS** knows how to intellectually defeat those that study weapons systems for offensive purposes, and also ensures that **GLOBAL SECURITY SYSTEMS** always knows how to physically defeat all weapons systems.

PRIORITIZATION STUDIES SYSTEMS (2022) – automatically studies how various factors should be considered, such as in weapons dismantling, to ensure the timely and expeditiously justice of all civilians around the world to maintain **WORLD PEACE** and **WORLD TRADE**, while ensuring that the climate is not destroyed in the process of any of its decisions, unnecessarily, such as excessive production of a product that is unwanted, for an example, such as through excess investments into a product that may not be viable to sell properly in the economy.

GOVERNMENT TECHNOLOGIES

VIRTUAL FOUR-DIMENSIONAL (4D) ORGANIZATIONAL BUREAUCRACY MODELING SYSTEM (2010, 2022) –

this pertains to the modeling of all the various positions within bureaucracy, such as displaying all the various career fields that a single employee could go into, and then displaying a four-dimensional (4D) model of the employee in the various career fields. This includes custom transitions, and the ability to utilize the system to study the various possibilities of interactions between the various agencies, visually. Any four-dimensional (4D) technology pertains to three-dimensional (3D) modelling with the addition of a fourth dimension (4D), which is a time scale, which does not necessarily move from left to right or from right to left, however they are essentially keyframes of multiple possibilities in multiple conditions of time, such that there could be multiple time clocks that exist on a four-dimensional (4D) axis.

DIGITAL FOUR-DIMENSIONAL (4D) LAW ENFORCEMENT TARGETING SYSTEM (2010) – this technology

pertains to the use of four-dimensional (4D) models created from the **VIRTUAL FOUR-DIMENSIONAL (4D) ORGANIZATIONAL BUREAUCRACY MODELING SYSTEM (2010)** for the purpose of testing the display of various types of law enforcement warnings and systems displays in the public. This includes graphical four-dimensional (4D) models that interact based on information of the subject of the targeting, variable display selection based on the location of the subject of the targeting, and the ability to gather feedback from the subject of the targeting using the graphical four-dimensional (4D) models and sensors in the area, including microphones, video cameras, and other types of input technologies. This system is meant to be cartoon oriented, while realistic, for the purpose of gathering information.

AUTOMATED MULTI-LATERAL SECURITY RESOLUTION AND NEGOTIATION SOFTWARE (2022) –

automatically resolves all diplomatic incidents by automatically negotiating and resolving all diplomatic situations through various types of international and multi-national mechanisms through bilateral and multilateral exchanges between the host nation and any foreign nation(s), to ensure, for an example, that a nation's citizens are returned to their host nation, and are not held against their will in a foreign nation, especially for minor crimes that the domestic citizen was not aware of as being a legal violation in the foreign nation, to ensure that a nation's people are not separated from their home nation and held as any prisoner of war in any foreign nation, even within that foreign nation's Justice systems. This system, could for an instance, provide agreements between **RUSSIA** and **THE UNITED STATES OF AMERICA** for extradition treaties, to ensure that **RUSSIANS** are never held in **THE UNITED STATES OF AMERICA**, and that **U.S. CITIZENS** are never held in
